Select domain   Create   **Validate**   Wait for   DNS
                account   **domain**   account setup complete!

Let's get your mail going to the right place

Before we can finish setting up your account, we need to verify that you own **goldenserenityhomecare.org**.

1. Log in to your account with your current DNS host. <u>What is DNS?</u>

2. Set the following TXT records.

    Name: D7812965
    TXT Value: v=spf1 include:secureserver.net -all

3. **CNAME Records:** Find where to add a CNAME record and enter:

    Host: email
    Points to: email.secureserver.net

4. **MX Records:** Find where to add an MX record and enter:

    Host: @
    Priority: 0
    Target: smtp.secureserver.net

Host:	@
Priority:	10
Target:	mailstore1.secureserver.net

5. **SRV Records:** Find where to add an SRV record and enter:

Port:	443
Protocol:	_tcp
Name:	@
Service:	_autodiscover
Priority:	100
Weight:	1
Target:	autodiscover.secureserver.net

If you have existing email destination records on your domain, you need to delete the old records before your Professional Email will work. Any changes you make to your records can take up to 24 hours to take effect.

Check My Settings

Sorry, we can't verify your settings, yet. It can take up to 24 hours for us to detect the update. Please double-check you entered the information correctly, and try again in a bit.

We're always here for you.

Setting up your email using an external domain for your business can get a little confusing. If you need a little help, remember we have people who really want to help you out.
